Dear Ikram,

Following up on my previous email, please see Option 2, which involves accommodating the mini fridge on the island counter by increasing its depth from 600mm to 900mm. This provides more flexibility, as otherwise the depth of the joinery on the wall side would need to be almost doubled.

Thank you,
Best regards

Dear Fulya and Ahmed,

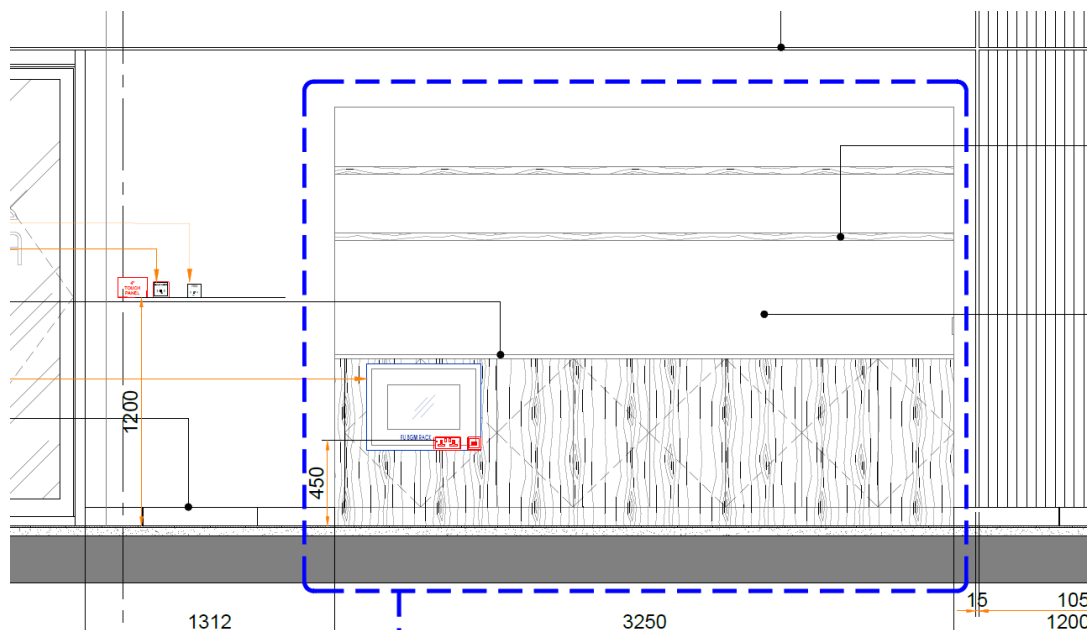

Find in the below link the SD-ARC-00282 Rev.01 Building-B Multipurpose Room Flooring Plan & Elevations

<https://we.tl/t-AepDTzrvKV>

FYI and review,

Note: as per my understanding this submittal and the GYM submittal included the Fixed Joinery Items - TV display units for GYM & Cabinets, Bar Counters.

Also please advise as per the client mini bar fringe required where to add, so the client shall be instructed for the same, to provide ele. provision and change in the cabinets to suit this addition
