## CIVIL ENGINEER

I am a dedicated and highly motivated civil and construction engineer with a strong commitment to excellence in all endeavors. Possessing excellent communication skills, I excel at collaborating effectively within teams as well as working autonomously. I bring practical experience in civil engineering and construction, demonstrating exceptional problem-solving abilities and a track record of efficiently achieving goals. I exhibit significant flexibility and adaptability to seamlessly navigate changing work environments. I am proactive and demonstrate the ability to prioritize tasks and manage time effectively to deliver results with high efficiency.

## EXPERIENCE

---

### STRUCTURAL ENGINEER

#### Imkan Engineering Consultancy

October 2023 - Present

- Utilized engineering software and tools proficiently to analyze designs and develop solutions.
- Communicated effectively with clients, contractors, and stakeholders to address concerns and ensure project success.

#### Geotechnical Engineer, Intern

#### NewTest Engineering Laboratory

July 2023 - October 2023

- Gained hands-on experience in conducting various engineering tests and experiments under the supervision of senior engineers.
- Contributed to technical reports and documentation summarizing test results and findings.
- 

#### Building Inspector Engineer, Intern

Yatta Municipality

February 2022 - May 2023

- Conducted building inspections to ensure compliance with local building codes, regulations, and safety standards.
- Reviewed and audited building permits and construction licenses for accuracy and completeness.
