Health Safety & Environment (HSE) Policy Statement

The long-term business success of **Royal Saraya Interiors LLC (RSI)** depends on our ability to continually improve the quality of our services and products while protecting people and the environment. Emphasis must be placed on ensuring human health, operational safety, environmental protection, quality enhancement, and community goodwill. This commitment is in the best interests of our customers, our employees and contractors, our stockholders, and the communities in which we live and work.

RSI requires the active commitment to, and accountability for, QHSE from all employees and contractors. Line management has a leadership role in the communication and implementation of, and ensuring compliance with, QHSE policies and standards. We are committed to

- Protect, and strive for improvement of, the health, safety and security of our people at all times;
- Eliminate Quality non-conformances and HSE accidents;
- Meet specified customer requirements and ensure continuous customer satisfaction;
- Set Quality & HSE performance objectives, measure results, assess and continually improve processes, services and product quality, through the use of an effective management system;
- Plan for, respond to and recover from any emergency, crisis and business disruption;
- Minimize our impact on the environment through pollution prevention, reduction of natural resource consumption and emissions, and the reduction and recycling of waste;
- Apply our technical skills to all HSE aspects in the design and engineering of our products;
- Communicate openly with stakeholders and ensure an understanding of our QHSE policies, standards, programs and performance. Reward outstanding QHSE performance;
- Improve our performance on issues relevant to our stakeholders that are of global concern and on which we can have an impact, and share with them our knowledge of successful QHSE programs and initiatives.

This Policy shall be regularly reviewed to ensure ongoing suitability. The commitments listed are in addition to our basic obligation to comply with SFM standards, as well as all applicable laws and regulations where we operate. This is critical to our business success because it allows us to systematically minimize all losses and adds value for all our stakeholders.

Quality Control / Assurance (QA/QC) Policy and Plan

Royal Saraya Interiors LLC (RSI) has been in existence since 2008. Its objectives are to provide a high quality service to its customers, whilst achieving a sustainable profit and developing its employees.

Its customers perceive it to be a high quality manufacturer, principally working for medium to large-sized projects. The company supplies products direct to its own clientele, working with architects and specifying authorities.

In all of its work, the management seeks to enhance the company's reputation as a manufacturer of good quality joinery products, which are delivered on time to specification, and in which long-established clients are valued.

The Quality Assurance policy of the company is to provide customers with products and service in accordance with their technical and commercial requirements and in accordance with relevant industry standards and practices. Specifically this means:

- Working to build a relationship of trust between the company and its clients in order to enhance levels of 'repeat' business.
- Recording their requirements accurately and providing quotations promptly.
- Manufacturing to quality standards to meet their expectations fully.
- Making best efforts to meet customers' delivery requirements.
- Dealing quickly with any customer concerns over service standards or product quality.
- Continuously improving the service we offer our customers.

In order to achieve these objectives the company maintains and operates a Quality Management System in accordance with this Manual.

All employees understand the importance of maintaining high levels of performance and work within the procedures laid down by this Quality System in order to ensure that an efficient and effective service is provided.

The Quality Management System is designed to comply with industry best standards for joinery manufacture. The responsibility for the implementation, operation and control of the Quality Management System is held by the Joinery Manager, who fulfils the role of 'management representative' and reports directly to the main board of the company.
