INTRODUCTION

Antreas Technologies LLC was established in 2015 based upon a vision to provide premium quality Commercial and Residential Audio Visual and Automation Systems in the UAE market.

We provide solutions to the commercial or residential units designed for the lifestyles of today with a keen eye towards the future.

We specialize in system design and integration including audio/video systems, home automation, lighting control, climate control, building automation and control, and more – staying on the cutting edge of the ever-changing world of technology while remaining focused on the needs of our clients.

VISION

Our Vision is to extend our experience in AV & Automation Technologies System Integration applications to all major verticals and Middle East territories and to the advantage of our clients and suppliers.

MISSION

To be the first-class system integrator of choice in the Middle East by serving our customers a consistently high level of quality services and products.

We make things easy and simple for our clients.

We strive continuously to contribute towards enhancing their corporate value.

CORE VALUES

We are honest and passionate in our work as we seek our clients' real needs for change.

We respect and protect the environment.

Our employees are our strength, we value our employees.

HOW WE WORK

PLANNING & DESIGN

Effective systems integration requires careful planning, layout and design. We offer advanced system design services from automation control of various subsystems to fully themed home theatres. We are here to design and execute your system just the way you envision it to be.

Sample design services include:

- Extensive floor plan evaluation
- Wire routing and cable scheduling
- Interconnectivity diagrams and schematics
- Project specifications

By utilizing our extensive design services and expertise, you can minimize any unexpected issues, ultimately saving time and money while ensuring that the end result is precisely what you had in mind.

SOLUTIONS THAT WORK

We take the often-complicated world of technology and simplify it. With so many other companies out there in the ever-changing world of technology, we are the right choice for any project ranging from simple to sophisticated.

OUR SERVICES

antreas technologies

CEDIA MEMBER

LIGHTING SYSTEMS

Mood lighting scenes for each room or for the entire home.

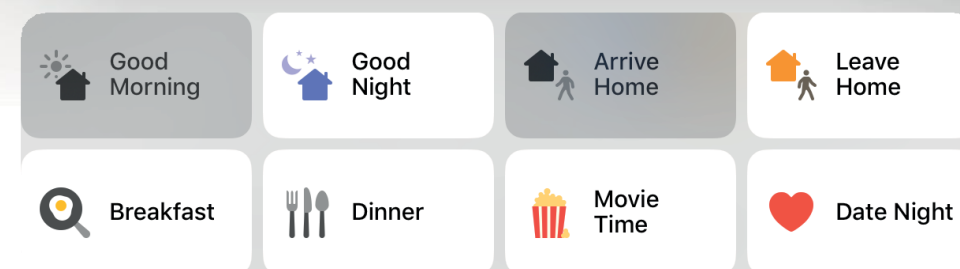

A range of attractive switches to match any interior.

Smoothly dim lights up and down according to time of the day and daylight intensity.

Run user-defined scenarios. Welcome scene, Vacation mode , TV watching', 'party mood', 'romantic dinner' and so on.

Adjusting brightness of a room according to user's comfort level.

Presence sensor based lighting control is propose for corridors, lobbies and service areas to turn on/o the lights according to the presence detection automatically.

LANDSCAPE LIGHTING

The system offers a convenient way to automate your low voltage lighting and other landscape features in an easy-to-install wireless system.

This technology allows you to turn on security lighting at the press of a button, control pathway lighting for easy night time entry and create different ambience for different occasions.

This technology extends to many other outdoor living spaces controlling fountains/swimming pools, seasonal lighting and other outdoor elements.

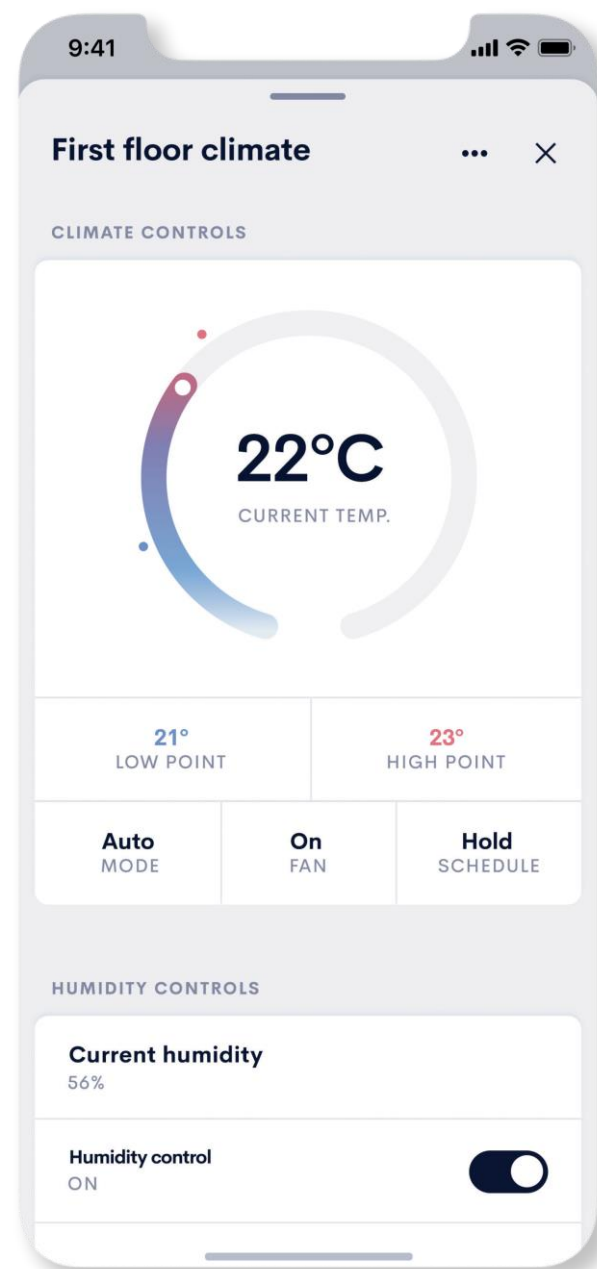

LIGHTING PRODUCTS

- Technical Lighting
- Architectural Lighting
- Decorative Lighting
- External & Façade Lighting
- Industrial Lighting

A/C CONTROL SYSTEM

With Smart home Systems, you can control all your air conditioners collectively and individually, from your tablet, smart phone or computer.

Specific schedules for air conditioning operation under Smart home System control will create an ideal temperature and lower your electric bills.

With intelligent controls, your air conditioner will turn off automatically when you leave the room and thus helps in energy saving.

A home automation system provides comfortable temperature levels in different areas of the house subject to the occupancy in the area and the time of the day.

CURTAINS & BLINDS

Enjoy the added convenience of automated motorized blinds, curtains, or shutters in your property.

Controlled individually or in entire groups, they operate (open or close) automatically based on schedules or the external light level, or simply by using aniPad/ Touchscreen or intelligent keypad.

CONTROL UNITS

Remote controls and touchscreens offer the ultimate intelligent home automation solution with just the press of a button.

- TV/ Media Control Connect via Wi Fi
- One-Touch Access to your Favourites & Settings
- Manage Multiple Media Devices Scene Selection
- Lights and Blinds Control Temperature Status & Control Access / Control All Areas
- Music Control

BACKGROUND MUSIC SYSTEMS

- Invisible Ceiling / wall Speakers
- Special rated speakers for outdoor music
- Controllable wirelessly from iPhone devices /Android
- Can be Connected to multiple sources like internet radio, FM , local music servers , Apple TV Etc.
- Option to airplay music from Apple/ Android devices
- Central sound server can be used to play and control music from any part of the home

B&O
BANG & OLUFSEN

B&W
Bowers & Wilkins

SONANCE
BEYOND SOUND

SONOS

LANDSCAPE MUSIC SYSTEM

- Landscape Music system with Wireless Streaming
- IP 66 rated speakers and subwoofers
- Various options like Rock, Spike, Mushroom, Wall speakers

SONOS
THE WIRELESS HiFi SYSTEM

HOME THEATRE SYSTEMS

Our home theater designers are experienced in selecting suitable electronic equipment, acoustic panels, theater seating options, projectors and speaker systems etc. Now you can sit, relax and enjoy your home theater experience

Fully automated home theater with 4K/HDR Native Cinemascope Laser Projector & Special 4-Way Automatic masking cinema screen

High quality surround sound system with Immersive 3D codecs

Play movies from Network based movie server, Blu Ray player or Apple TV

Fully controllable from iPad or touchscreen

CENTRALISED AUDIO VIDEO SYSTEM

Centralized AV means having music and video in every room of your home with nothing more than a wall mounted keypad, TV screen and virtually invisible in-wall speakers / ceiling speaker .

Whole house audio/video refers to a centralized AV system that pipes music and video signals throughout the home and users can play media content in selected rooms or play different programs in different rooms.

Users can select programs wirelessly through Apple / Android devices, touch screens or remote.

Play content from network server, Apple TV, BluRay player or stream content directly from internet.

MIRROR TV

- Elegant Mirror TV's for bathrooms
- Play Movies from the network server
- Airplay your videos
- Waterproof remote controls

VIDEO CONFERENCING SYSTEMS

Video Conferencing Systems in the office Room

SMART OFFICE

- Time Attendance/ Access Control System IP CCTV
- Meeting Room Scheduler Bgm
- Signage Solutions IP Telephones
- Conference Solutions Lighting Solutions A/C Controls
- Curtains & Blinds

SMART CLASSROOMS

Smart classroom is technology-enhanced classrooms that foster opportunities for teaching and learning by integrating learning technology, such as computers, specialized software, audience response technology, assistive listening devices, networking, and audio/visual capabilities.

Creating Collaborative Classrooms Empowering Educators

CLASSROOM AUTOMATIONS

- INTERACTIVE SCREEN / WHITEBOARDS
- AV SYSTEM INTEGRATION
- UNIFIED COMMUNICATIONS
- LIGHTING AND SHADES CONTROL

SMART BOARD ROOMS

Interactive Screen | AV Systems | Unified Communications Lighting And Shades Control
| Meeting Room Booking

Smart meeting rooms are a crucial element of a smart office set up. Powered by intelligent technology that integrates into the meeting space, smart meeting rooms help create dynamic meeting experiences for remote and in-person attendees.

AUDITORIUM / STAGE

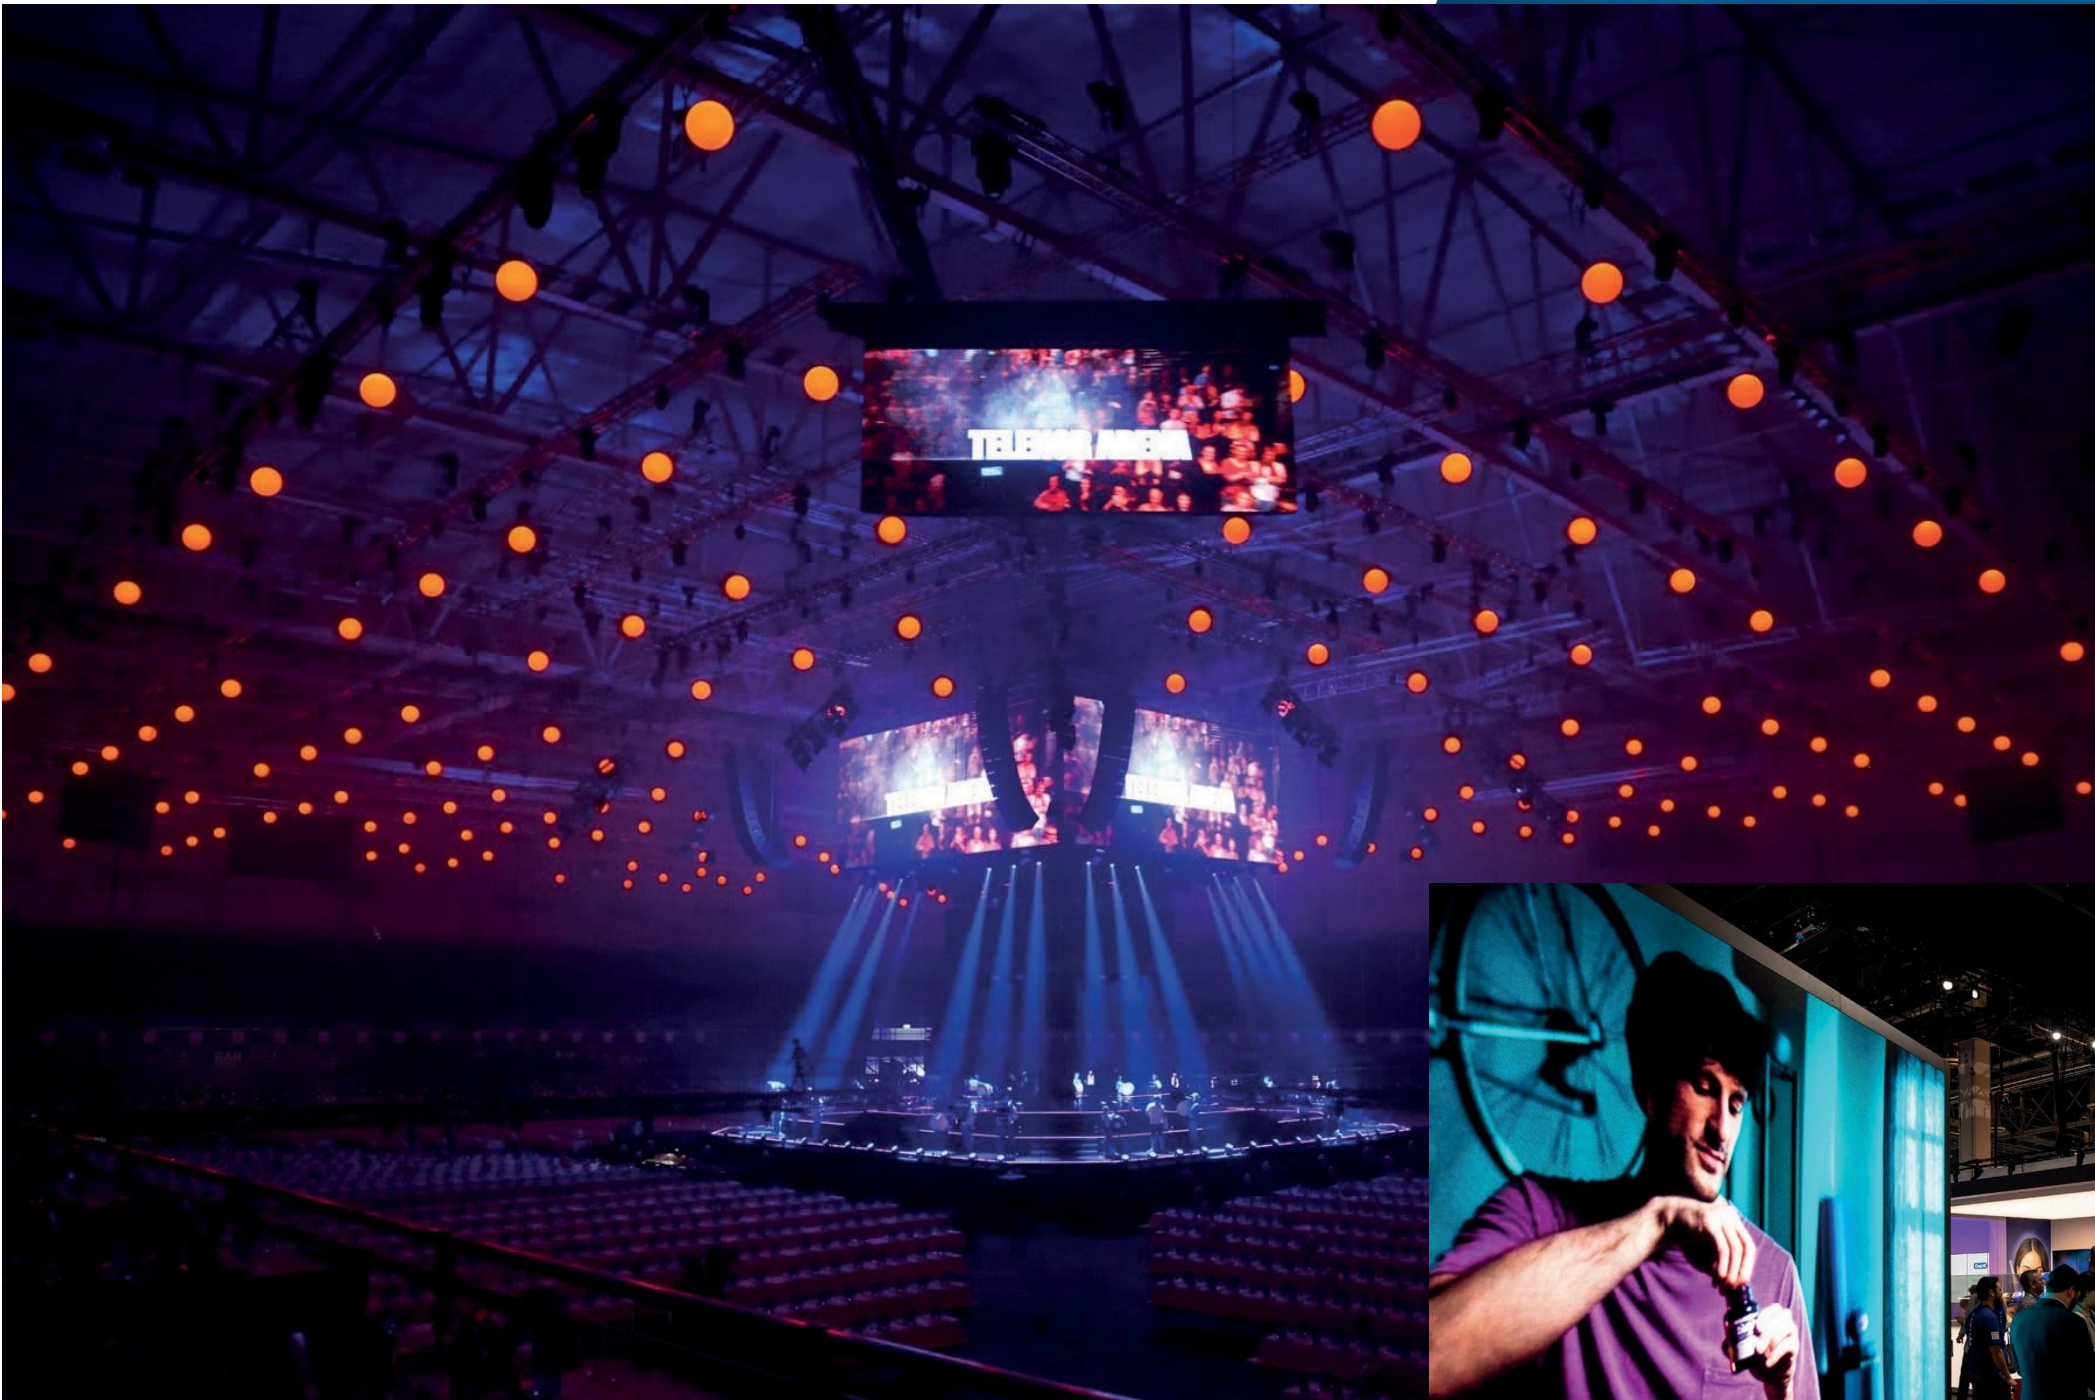

We will help you to build your reality Auditorium. We integrate an auditorium with AV Presentation Solutions considering its application, audience, type of performance i.e whether it is Live concert or tutoring lecture or any other commercial or social presentation.

We watchfully plan and execute all detail in respective field from Audio Video to Acoustics to Lighting so that you get maximum results of your performance.

Here is your one touch, one stop solution for all auditoriums which includes

- Audio Video Solutions
- Acoustic Solutions
- Lighting Solutions
- Full Automation

ENTERTAINMENT ARENA

We believe that audio, video, and lighting technology should not only enhance an environment but bring it to life in the most evocative way possible. Our passion is delivering the widest spectrum of innovative event technology solutions in support of ambitious designs. Our imagination is only limited by physics, and our spirit is inexhaustible.

ELV SYSTEMS

Wi-Fi Networking
IP PBX
Video Intercom Systems

RACKS & ACCESSORIES

Designed specifically for your Home/Office/Yacht, it comprises a heavy-duty, fully mobile cage for all round access for rigging during installation and maintenance.

Our equipment racks are designed for easy access with maintenance and system upgrades in mind.

Equipment cooling devices are also included to ensure the equipment functions to its optimum capability.

PROGRAMMING & COMMISSIONING SERVICES

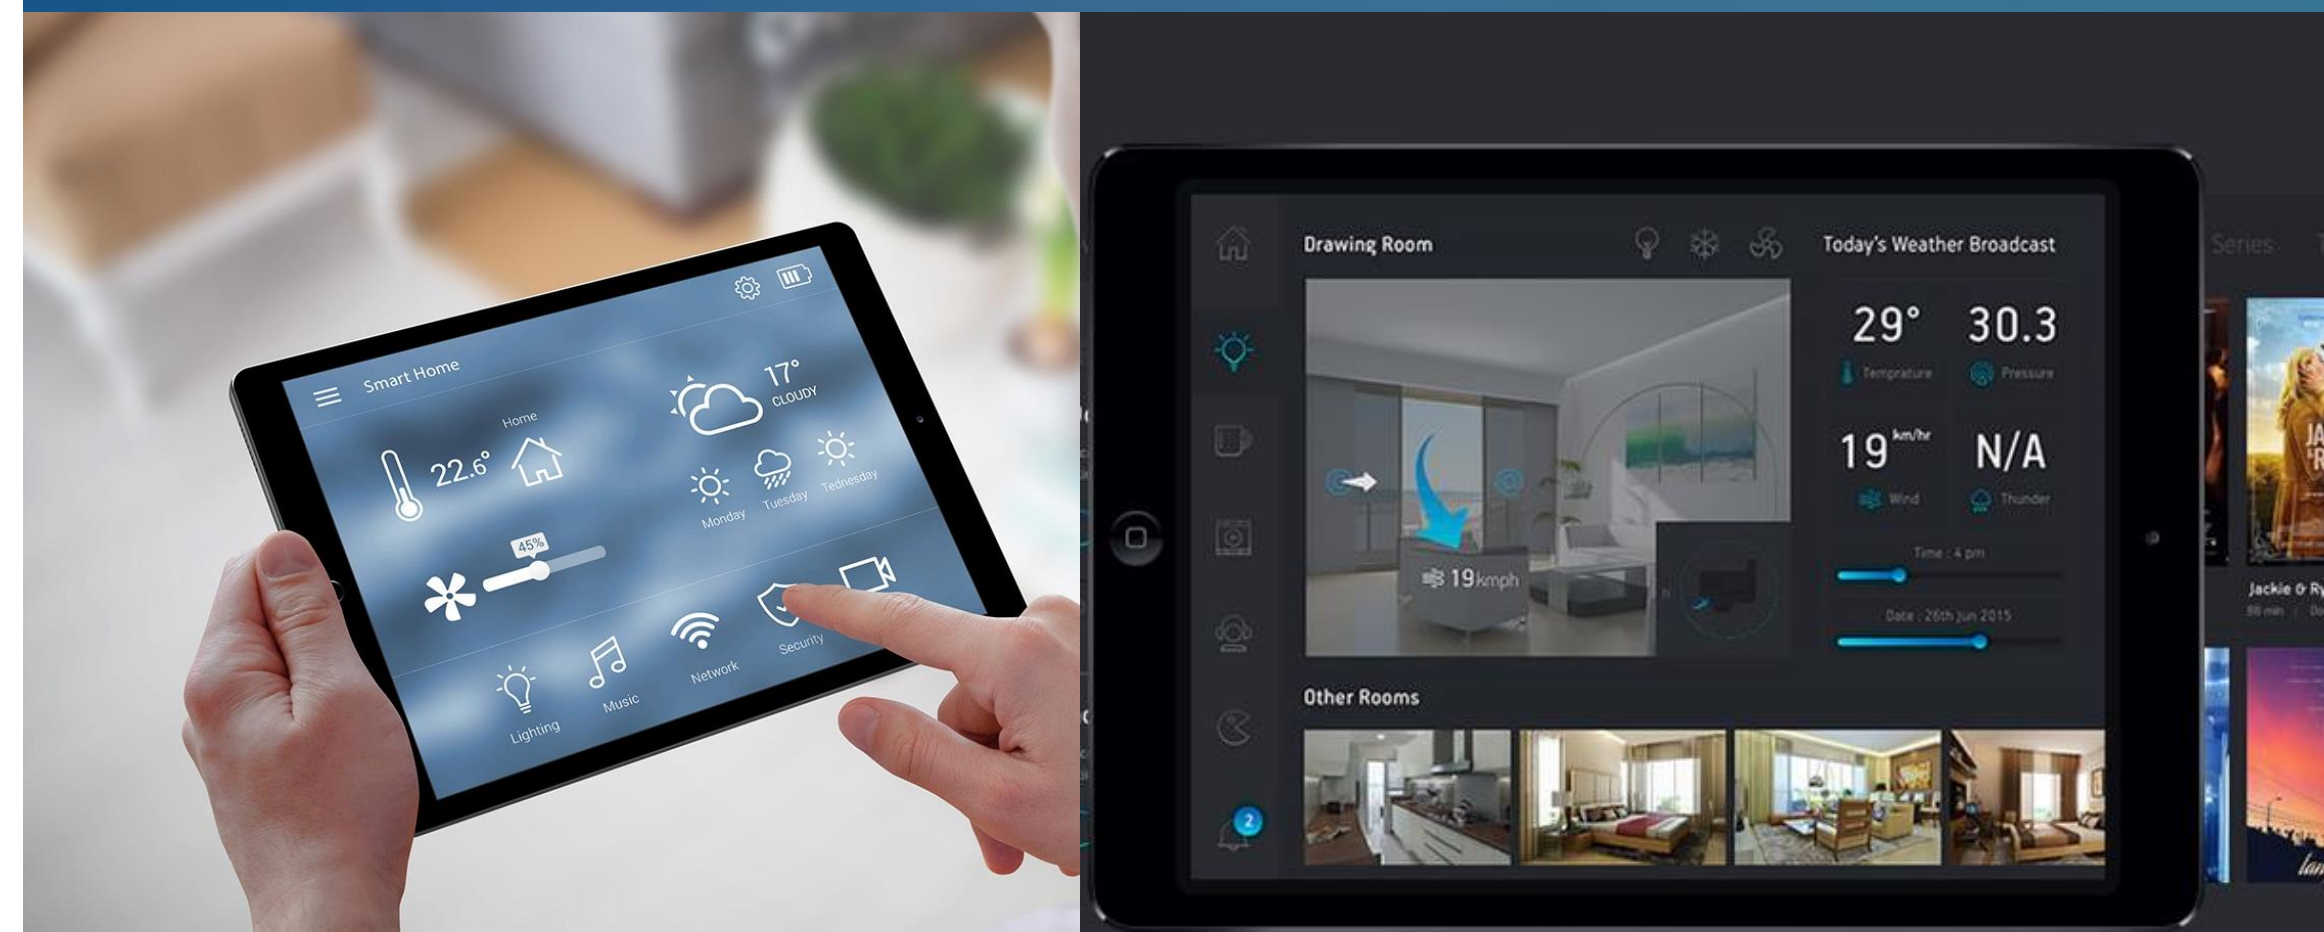

Antreas Technologies LLC provides professional services in programming & commissioning of various control systems like Crestron, KNX, Philips Dynalite & Legrand Vantage Systems.

Making sophisticated technology easy to use and simple for any user to obtain a high level of performance requires advanced work on the back end.

Our team of certified programmers will provide the highest level of quality programming for even the most complex of control system designs. Our commitment to provide the best in customer service means that we guarantee our programming for the life time of your system.
