GENERAL INFORMATION

Company Name	: EMIRATES WATER TECHNOLOGY COMPANY – LLC
License Number	: CN-1050242
Company Address	: H.H Sheik Omar Bin Zayed Al Nahyan Building, Office 403, Tourist Club Area, Abu Dhabi, UAE
P.O Box	: 29261
Telephone	: +971 2 650 7755
Fax	: +971 2 650 7751
Website Address	: www.ewt.ae
Date of Establishment	: April 2003
Number of Employees	: 62

EMIRATES WATER TECHNOLOGY Co. LLC

COMPANY OVERVIEW

In April 2003, Emirates Water Technology Co. LLC was established to deal mainly with all kind of solutions relates to the environment and to meet the need in the Middle East, Gulf Region & Africa Continent.

The EWT team main objectives is to deliver safe, clean and feasible investment return to the provided water and wastewater solutions by collection, treatment and reuse of treated effluent water to end user with a full compliance to Environmental standards.

We provide complete source services ranging from Egineering and Design to construction and installation of water and wastewater treatment facilities.
Our range of service includes all phase of project development from plannning, feasibility studies, engineering design, equipment / systems supply and construction / installation to start-up and operations.

In wastewater solutions, Emirates Water Technology Co. LLC has pioneered the bacteriological proess known as Submerged Aerated Filter (SAF) supported by a Fixed Bed Reactors (FBR) imported from Expo-net Denmark.

The SAF System has the advantage of low sludge production and it is one of the most echo friendly system in the world.

We have been taking over various turnkey projects of very large / meduim and small capcities: Sewage Treatment Plants (STP), Desalination Plants (RO) and Screening System for Wateswater Pump Stations.

In 2011, EWT has established EWT equipment – a trading branch handling all kinds of water and wastewater inquiries to meet all Municipal / in'dustries water and wastewater treatment needs.

In 2012, EWT Equipment started a Joint Venture Partnership with SIMECO Engineering – Italy, where we cover a wide range of headworks & filtration equipment.

We are proud to be partners with leaders in engineering and equipment manufacturing.

EWT

OUR VISION

As populations grow and the world further develops, there has been an increase in demand for a better life. Water, being an integral part of everyday life, is key to this betterment. This emphasizes the importance of sustainable water treatment methods.

In October 2002, the *Emirates Water Technology Co.* was established in the UAE, aiming to provide solutions to water-related demands, while meeting the needs of populations across the Middle East, the GCC and beyond.

Our main objective at EWT is to provide feasible means for water and wastewater treatment and purification in isolated properties, settlements, resorts, small villages, development project sites and hotels that are not connected to the public distribution and drainage network.

At EWT, we pride ourselves on providing and designing appropriate water and wastewater treatment methods which help produce water that adhered to the standards set by relevant regulatory bodies.

Our commitment lies in delivering sustainable, eco-friendly, and affordable water technologies, contributing to a better future for all.

PORTFOLIO

At EWT, we provide a wide array of services. At the core of our business, our services include engineering, supplying, installing, commissioning, operating, and the maintenance of sewage treatment plants, industrial water treatment plants, greywater treatment systems and reverse osmosis/desalination plants.

We are licensed for retail sale and the import and export of equipment for water desalination machinery and their accessories, wholesale of water treatment, purification trading, installation of water treatment and refining.

Furthermore, we are licensed to operate in onshore and offshore oil and gas field facilities and services.

We have executed all kinds of projects in UAE, Kuwait, Djibouti, Oman, Qatar, Iraq and Seychelles, reflecting our broad reach and diverse expertise.

EWT

SEWAGE TREATMENT PLANT

We offer a diverse range of sewage treatment technologies tailored to meet our clients' specific water needs. Our expertise consists of Submerged Aerated Fixed Film (SAFF), Integrated fixed- film activated sludge (IFAS), Moving Biological bed reactor (MBBR) and Membrane Biological Reactor (MBR).

WATER TREATMENT PLANT

We offer Reverse Osmosis (RO) systems tailored to our clients' water requirements. RO is a highly effective method for reducing or eliminating unwanted salts and minerals, making it particularly crucial for applications such as potable water. This becomes especially significant in regions where reliable water resources are scarce.

WATER RECYLING SYSTEM

We offer a variety of water recycling systems and technologies tailor to our clients' specific water needs. The treatment process for recycled water varies depending on the water source and its intended application. Common sources for water recycling include gray water, car wash water, oily water, slaughterhouse wastewater, and industrial wastewater (ETP).

Our offerings include Biological Treatment Plant Technologies such as Ultra Filtration Systems, Electro Coagulation, and Dissolved Air Floatation (DAF).

EMIRATES
WATER
TECHNOLOGY
Co. LLC

Company **Profile**

ABOUT US

Growing population, demands for water resources, huge development and septic contamination mean that sewage treatment is a serious and timely issue.

Thus, in October 2002, Emirates Water Technology Co. was established to contribute in our globe environmental solutions to improve the humans' hygienic conditions and enhance their lifestyle.

The EWT team main objective is to provide a feasible solution to the treatment of water and wastewater in scattered location not connected to public water and drainage networks such as isolated properties, settlement, resorts, small villages and hotels.

EWT aims to deliver safe, clean and feasible investment return to the provided water and wastewater solutions by collection, treatment and reuse of treated effluent water to end user with a full compliance to Environment Standards.

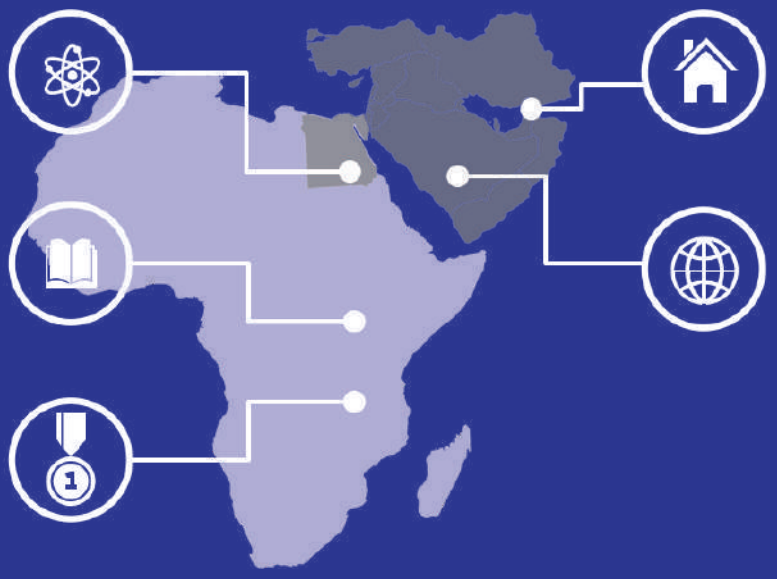

Specialist
Specialist in Environment, Water & Wastewater

Reliable
Planning, feasibility studies, engineering design, construction and installations, operations

Assurance
EWT with Partners cover all water and wastewater application.

Location
Based in UAE, Abu Dhabi

Projects
Many RO desalination, Grey water treatment , STP in all Africa and Gulf Area

REVERSE OSMOSIS/ DESALINATION PLANT

Design, Procure, Install, Operate and Maintain Systems:

- Brackish water
- Sea water up to 45,000 ppm
- High sallinity water with energy recovery system up to 55,000 ppm.
- Install, Operate and rent/hire Desalinated water to end user (selling water)

SEWAGE TREATMENT PLANTS

- Modular unit - GRP/ Steel Tanks up to 1000 cubic meter per day
- Permanent Plants - large capacity (GLS Tanks / Concrete Tanks)

SEWAGE TREATMENT PLANT (STP)

*STP 500 cum - Abu Dhabi, UAE

*STP 50 cum - Seychelles

1

The system receives sewage either to an automatic screen, manual screen or a combined automatic and manual screen. Solids are removed and sewage received in an equalizing tank to balance the flow.

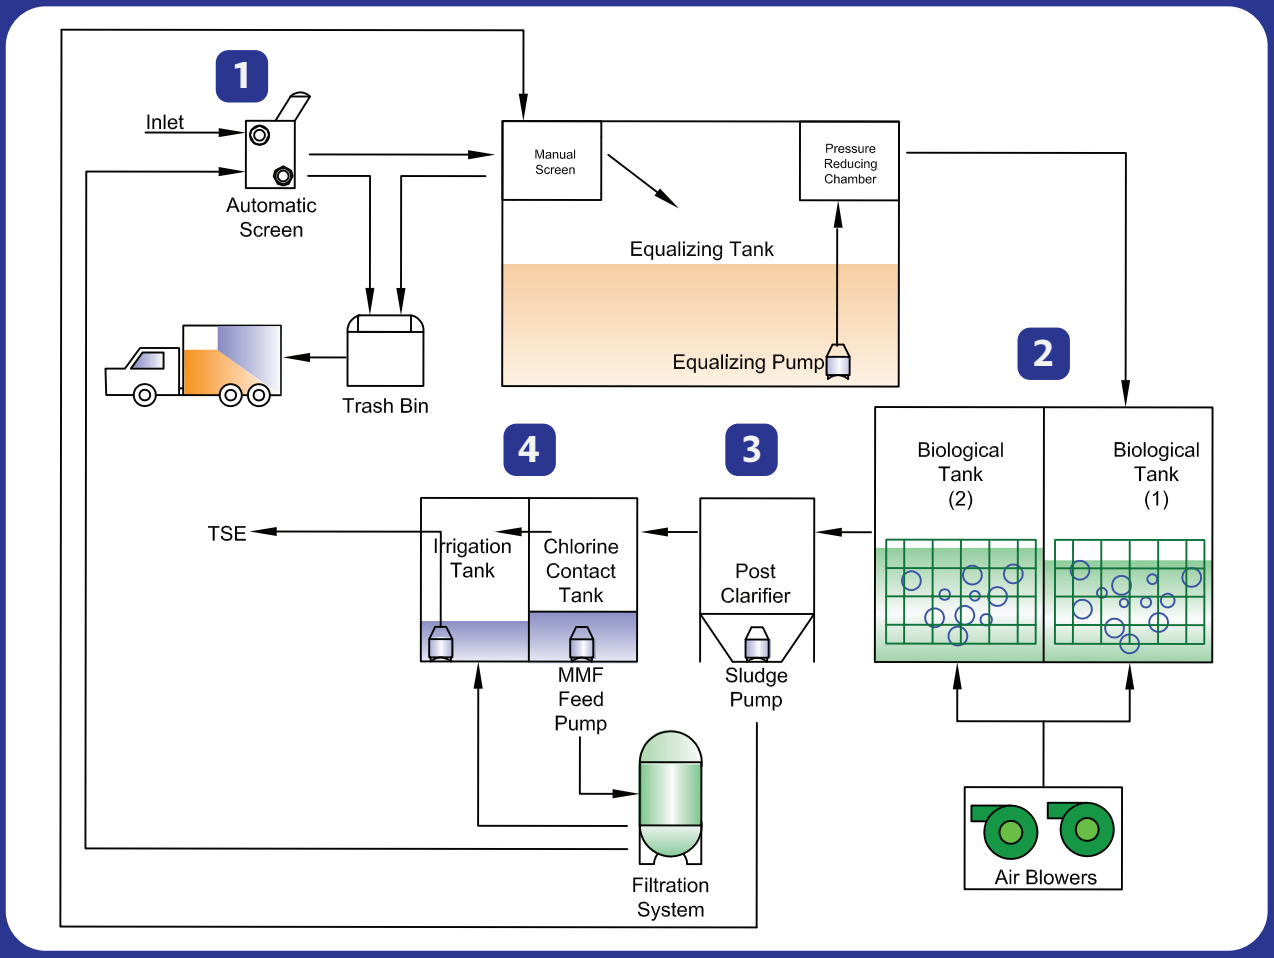

2

The Biological Putification Phase (Primary Treatment):

The overall objective of the biological treatment of domestic wastewater is to transform or oxidize dissolved and particles biodegradable constituents into acceptable end product.

A diffused air system which consists of stainless steel diffusers that are submerged in the wastewater provide the required oxygen to the aerobic microorganisms to grow on the installed filters called bioblok.

Extended twenty four (24) hours aeration to the system will be supplied by a working/standby blowers on twenty four (24) hours basis.

Sewage Treatment Plant Schematic Diagram

3

The Post-Treatment Phase (Secondary Treatment):

The water leaves the biological purification phase into the secondary treatment chamber called the Post-Clarifier Tank.

This phase serves for the separation of the biological cleaned water from the surplus biomass. The Post-Clarifier Tank has a funnel-shape at its base so that the surplus mass (sludge) settles there and then carried out periodically to a chamber at manual screen by means of submersible pump where the sludge is removed manually to a dumping landfill by bags.

4

The Disinfection Phase (Tertiary Treatment):

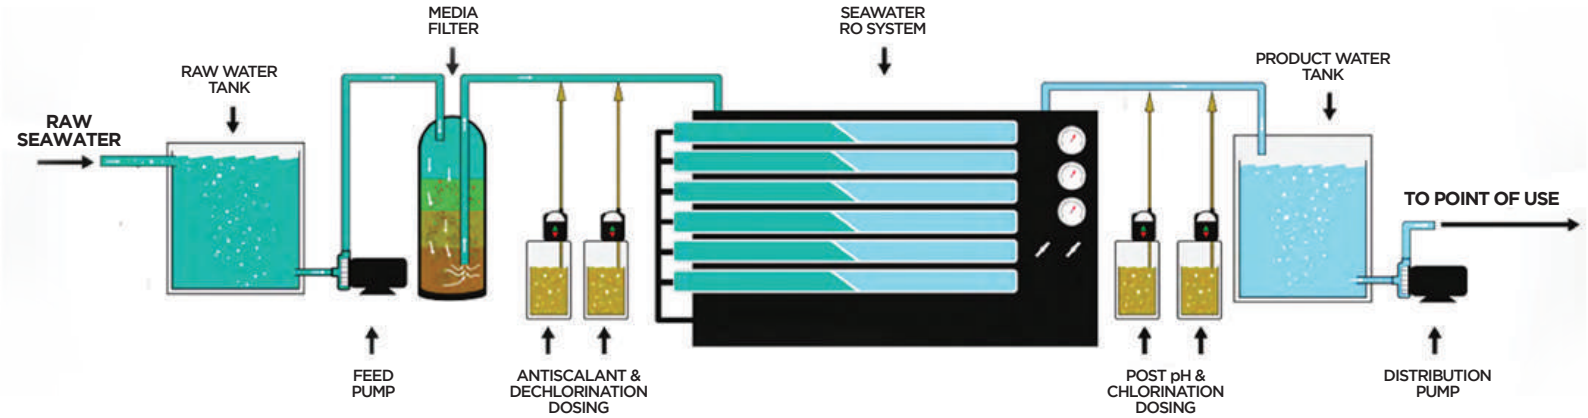

The biological treated water leaves by gravity the Post-Clarifier Tank into a Chlorine Contact Tank equipped with a Chlorine Disinfection System prior to entering the Main Effluent Storage Tank.

REVERSE OSMOSIS (RO)

Reverse osmosis is a water treatment process, that forces water through an extremely fine semi-permeable membrane, to remove dissolved solids.

We offer a wide range of pre-fabricated Reverse Osmosis plants, for both brackish or sea water desalination, in order to produce high quality potable or industrial water. High purity water can be produced as well by means of double pass desalination.

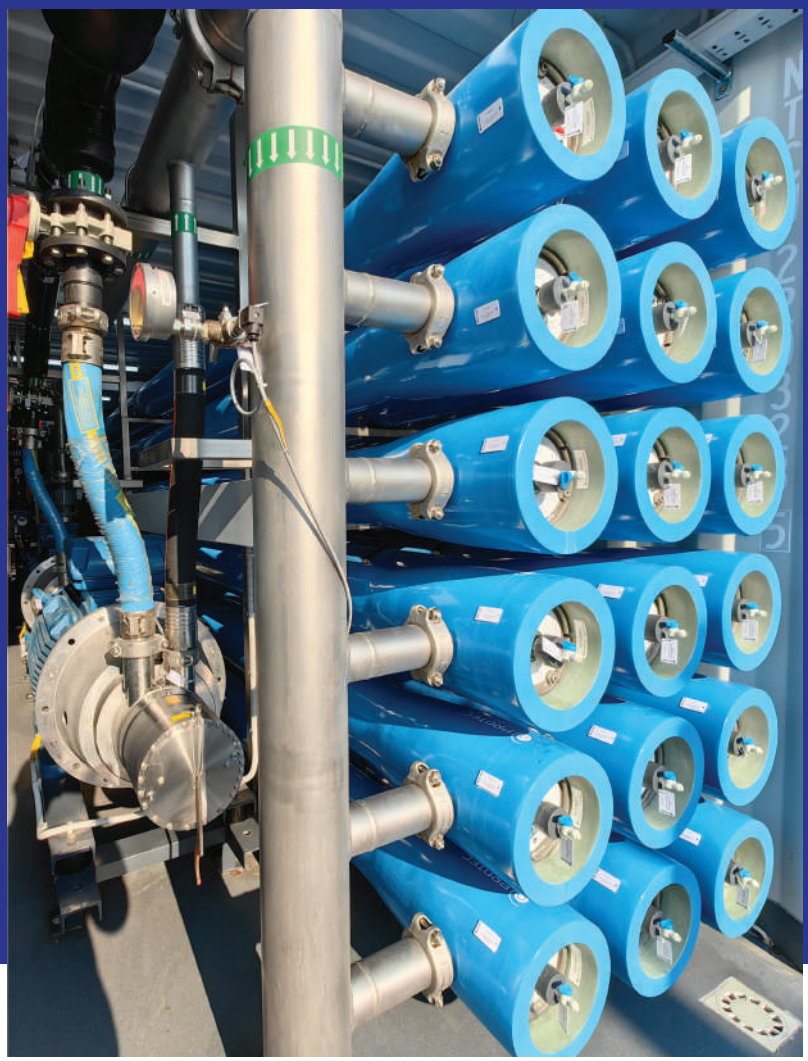

At the design of each system we focus to use the most appropriate raw materials, especially for sea water desalination plants, in order to reduce the down-time of the system. Since energy consumption is very essential for sea water desalination we can offer integrated solutions with built in energy recovery system.

Typical Seawater RO System Flow Diagram

*RO 4000 cum - Abu Dhabi, UAE

Our Reverse Osmosis Desalination systems, designed from our experts and manufactured in our production line, are using state of the art equipment in order to provide:

- High quality water at minimum production cost
- Minimize the frequency of chemical cleaning
- Stable and trouble free operation
- Flexibility for the design, from our standard production program to tailor-made, turn-key solutions

All systems can be delivered completely pre-fabricated, inside one or more containers.

3.5 Screens & Headworks

EMIRATES WATER TECHNOLOGY Co. LLC

List of Projects
Screens & Headwork's

PROJECT/ SCOPE OF WORK	LOCATION	EQUIPMENT MANUFACTURER	CLIENT	YEAR	TYPE OF INSTALLATION
Supply of 9 manual Bar Screen big size - Al Rusafa WTP - Baghdad	Baghdad - Iraq	EMO - France	M/s Baghdad Municipality	2012	WTP
Supply and Installation Supervision of 2 Mechanical Bar Screens-Sharjah PS1	Sharjah, UAE	EMO- France	M/s Sharjah City Municipality	2013	Pumping Station
Supply and Installation of 13 Manual Screens for Al Khan & Khalid Lagoons + 3 Mechanical Basket Screens PS-3,PS-10 & PS-Chamber of Commerce	Sharjah, UAE	SIMECO ENG'G	M/s Sharjah City Municipality	2013	Lagoons and Pumping Station
Supply of 2 In- Tank Screw Screen-Micro combi 168	Al Ain, UAE	SIMECO ENG'G	M/s Celar Water Treatment	2012	Package Sewage Treatment Plant
Supply of 1 In-Channel Screw Screen DN 200 w/ Compactor	Oman	SIMECO ENG'G	M/s Celar Water Treatment	2013	Package Sewage Treatment Plant
Supply of 1 Screw Screen DN 200 w/ Compactor CFC20	Sharjah, UAE	SIMECO ENG'G	M/s Global Engineering Systems	2013	Package Sewage Treatment Plant
Supply of 1 Grit Classifier CDS20	Oman	SIMECO ENG'G	M/s Global Engineering Systems	2012/ 2013	Package Sewage Treatment Plant
Supply/ Installation of In-Tank Screw Screen w/compactor DN200 - CFT/C20	Ruwais, UAE	SIMECO ENG'G	M/s IMECO	2013	Package Sewage Treatment Plant
Supply/ Installation of Screen & Grit Removal / Micro combi 200 316/MS	Qatar	SIMECO ENG'G	M/s Target Engineering	2012/ 2013	Package Sewage Treatment Plant
Supply of 1 Movable Manual Basket Screen	Abu Dhabi, UAE	SIMECO ENG'G	M/s ACWA Emirates	2013	Sewage Treatment Plant
Supply of 2 In- Tank Screw Screen-Micro combi 168	Abu Dhabi, UAE	SIMECO ENG'G	M/s ACWA Emirates	2013	Sewage Treatment Plant
Supply/ Installation of 2 Screenings Compactors	Sharjah, UAE	SIMECO ENG'G	M/s Sharjah Municipality	2013	Main STP

EMIRATES WATER TECHNOLOGY Co. LLC

List of Projects
Screens & Headwork's

Supply/ Installation of 1 In-tank Screw Screen	Barakah, UAE	SIMECO ENG'G	M/s IMECO	2013	Main STP
Supply/ Installation of 1 Vertical Screw Screen DN200 w/Compactor	Kuwait	SIMECO ENG'G	M/s Kuwait Oil Company	2013	Main STP
Supply/ Installation of 1 Combined Pre-Treatment Unit 300M³/day	Kuwait	SIMECO ENG'G	M/s Kuwait Oil Company	2013	Main STP
Supply/ Installation of 1 Combined Pre-Treatment Unit 300M³/day	Ruwais, UAE	SIMECO ENG'G	M/s AIMS General Contracting	2014	Main STP
Supply/ Installation of 1 Combined Pre-Treatment Unit 300M³/day	Ruwais, UAE	SIMECO ENG'G	M/s AIMS General Contracting	2014	Main STP
Supply/ Installation of 1 Micro combi 200M³/day	Asab Camp, UAE	SIMECO ENG'G	M/s Bin Mansour Transport	2014	Main STP
Supply/ Installation of 1 Micro combi 200M³/day	Abu Dhabi, UAE	SIMECO ENG'G	M/s Al Geemi & Partners Contracting Co. LLC	2014	Main STP
Supply/ Installation of 1 Micro combi 200M³/day	Kuwait	SIMECO ENG'G	M/s Ahmadiah Contracting & Trading Co. K.C.S.C	2014	Main STP
Supply/ Installation of 1 Micro combi 200M³/day	Kuwait	SIMECO ENG'G	M/s Flame Petroleum Services & Equipment Co.	2014	Main STP
Supply/ Installation of 1 Micro combi 200M³/day	Abu Dhabi, UAE	SIMECO ENG'G	M/s McConnell Dowell	2015	Main STP
Supply/ Installation of 1 Micro combi 200M³/day	Kuwait	SIMECO ENG'G	M/s Kharafi	2015	Main STP
Supply/ Installation of 2 Micro combi 200M³/day	Abu Dhabi, UAE	SIMECO ENG'G	M/s Catalyst	2015	Main STP
Supply/ Installation of 1 Combined Pre-Treatment Unit 500M³/day	Abu Dhabi, UAE	SIMECO ENG'G	M/s Archirodon	2015	Main STP

EMIRATES WATER TECHNOLOGY Co. LLC

List of Projects
Screens & Headwork's

Supply/ Installation of 1 Micro combi 200M³/day	Abu Dhabi, UAE	SIMECO ENG'G	M/s Zaya Real State Development LLC	2015	Main STP
Supply/ Installation of 1 Micro combi 200M³/day	Abu Dhabi, UAE	SIMECO ENG'G	M/s Discovery Group of Companies	2015	Main STP
Supply/ Installation of 1 Automatic Screen FORS 150	Dubai, UAE	SIMECO ENG'G	M/s Sobha Developers	2015	Main STP
Supply/ Installation of 1 Combined Pre-Treatment Unit 300M³/day	Abu Dhabi, UAE	SIMECO ENG'G	M/s Zaya Real State Development LLC	2015	Main STP
Supply/ Installation of 1 Micro combi 200M³/day	Abu Dhabi, UAE	SIMECO ENG'G	M/s Target Engineering	2016	Main STP
Supply/ Installation of 1 Micro combi 200M³/day	Abu Dhabi, UAE	SIMECO ENG'G	M/s International Mechanical & Electrical Co. (IMECO)	2016	Main STP
Supply/ Installation of 1 Vertical Spiral Screen (VSS40) & 2 Combined Pre-treatment Unit (CBU3-15)	Abu Dhabi, UAE	SIMECO ENG'G	M/s Arabian Construction Co. (ACC)	2016	Main STP
Supply/ Installation of 1 Combined Pre-Treatment Unit 500M³/day	Kuwait	SIMECO ENG'G	M/s First Kuwaiti Company	2016	Main STP
Supply/ Installation of 1 Combined Pre-Treatment Unit & 1 Vertical Screw Screen	Dubai, UAE	SIMECO ENG'G	M/s MERAAS	2016	Main STP
